Model	R2425	R2420	R2418	R2412
Voltage	220-240V 50/60Hz	220-240V 50/60Hz	220-240V 50/60Hz	220-240V 50/60Hz
Power	2100-2500W	1700-2000W	1400-1700W	1000-1200W
Weight	2,8 Kg	2,8 Kg	2,7 Kg	2,4 Kg
IP rating	IP55			

DIGITAL THERMOSTAT

FROM REMOTE CONTROL

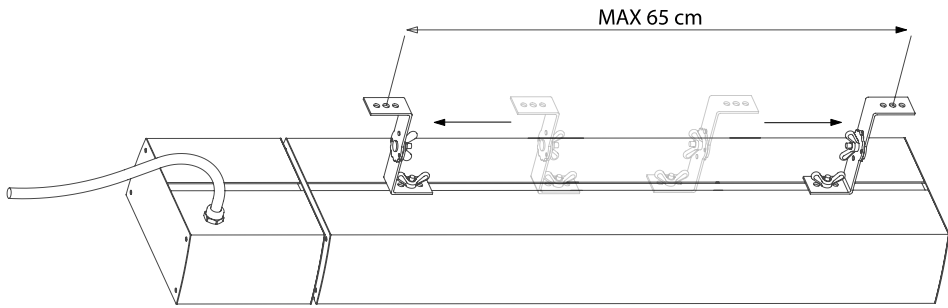

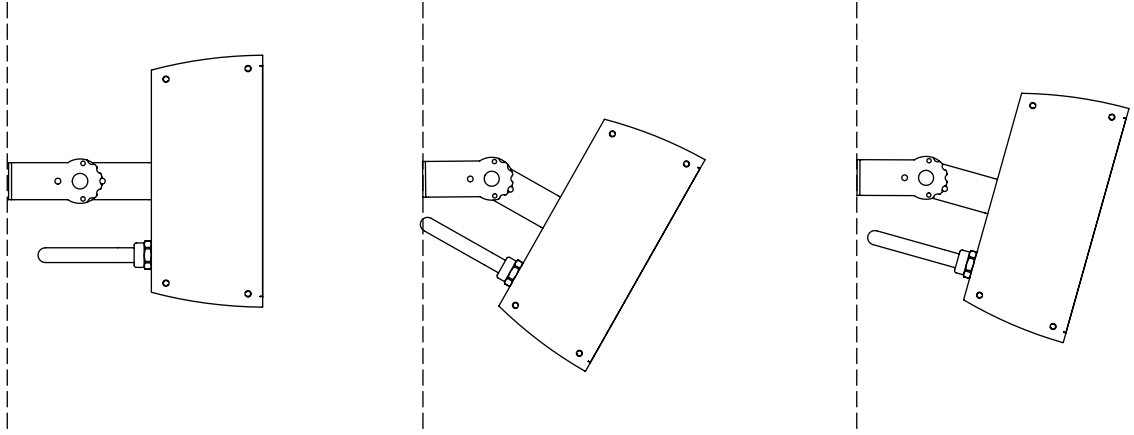

THE NEVADA

Carbon infrared heater generates low-glare, medium-wave infrared heat. Its comfortable warmth is quickly distributed over a wide area, thanks to a specially designed reflector. The wavelength of the emitted light enables the heat to travel long distances, transforming into a pleasant warmth. The heating intensity can be easily adjusted using the remote control. This innovative heater operates with exceptional energy efficiency, eliminating the need for additional insulation. As a result, it not only reduces energy costs but also provides a consistent and comfortable environment year-round.
